Blending technology with age old tradition

At Herbochem we use the latest technological innovations and practices fused with age old traditions, to create four powerful and unique products which are fully rooted in nature and filled with medicinal properties.

HBC3, TH₂O Water Soluble Curcumin

The dynamic R&D department of Herbochem has developed water soluble curcuminoids, with the highest assay and bioavailability in the industry.

WSM8, WSH8 and ASH₂O Ashwagandha Extract

The HC8W Ashwagandha, with a composition of Withanalogoids and Withanoloid Glycosides, adopting green technology, has strong stress relieving properties and acts as an effective antioxidant.

Highest Assay
Highest Bioavailability
Residual solvents as per ICH guidelines

Hydrolysed - First in the industry 5% Assay

Note: Also upto 8% by USP protocol available
MoPro 30 Moringa Extract

The MoPro 30 Moringa Extract contains ≥30% Protein, is free of gluten, has the optimum composition of amino acids and helps maintain body metabolism.

30% Protein
Completely Water Soluble
24% Saponins and Glycosides

Coko 50P Coconut Extract

The Coko 50P is one of our most sought-after products as it contains 50% Protein. It is water soluble and contains MCTs. The extract is also completely gluten free.

Promotes weight loss
Improves digestion
Natural energy source
